The Italian universities

THE ADMISSIONS PROCESS
public universities

- There is no centralized system like UCAS
- students have to apply on each university website
- The majority of public universities have open access
- Medicine/engineering/architecture require entry exams to be done locally AND in September ..
- Classes usually start in October
- not specific services/staff for regular foreign students (more common to have international offices for “study abroad”/Erasmus who take care of international regular students)

The Italian universities

VINCENT HENDRICKS

Bournemouth Collegiate School 2014 , BIEM 2017

" International background, moved to the UK when I was 15. After having spent 3-years in England for school, it felt like studying in England at university level would not add more value to me as a person (from an experience, personal development and academic point of view). Bocconi seemed to be the perfect fit. Why? Because it gives you the right balance between cultural experience (quality of life) and top class academic education, which ultimately is what every determined student should look for when choosing a university destination."

Summer 2016 Internship in Corporate Finance

Bocconi Students

AADITH GHANDI

Antwerp international school 2015 , BIEF 2018

"I chose Bocconi because of the double edged sword they possess. On the one side you gain extremely strong quantitative and reasoning skills, on the other side you have the exposure to grow your soft skills through networking events, career fairs, company visits, interviews etc. Being part of Bocconi, puts you to be one of the most employable graduates at Fortune 500 companies globally, among some being Investment Banks, Consultancies, Global Conglomerates, Start-ups, etc. There is nothing thats not possible from Bocconi"

Summer 2017 Internship in Investment Banking
Credit Suisse (London)
